Transition to Life :

A Model for Living a Good Life for People with Asperger Syndrome

12 Week Certificate Course - Spring 2018

Project Description

Transition from secondary school to life is one of the most stressful times in the lives of young adults, but for those with Autism Spectrum Disorder (Asperger Syndrome) the event is overwhelming and anxiety provoking.

The intent of this project is to respond to the increasing needs of young adults with Asperger Syndrome transitioning from the secondary school setting into employment and independent living.
